**RNL PHOENIX WINS INTERNATIONAL INTERIOR DESIGN ASSOCIATION
AWARD FOR ITS DESIGN OF EARLY WARNING SERVICES CORPORATE OFFICE**

Phoenix, Arizona June 27, 2007– RNL won a merit award from the Southwest chapter of the International Interior Design Association for its design of Early Warning Services' new corporate office in Scottsdale. The award was presented at the chapter's annual PRIDE awards in late April. Designers from the RNL team created relief and depth in the 41,000 square foot continuous open office environment by incorporating a series of folding and intersecting planes to define interior spaces. The space includes a lobby, a high-tech boardroom, temperature controlled IT rooms, a break room, private offices, and 200 workstations along with a plan for future expansion.

RNL is an integrated full service architectural and design firm with offices in Phoenix, Denver and Los Angeles, serving clients locally, nationally and internationally. RNL offers clients a continuum of design services, including architecture, interior design, landscape architecture, urban design and planning, and engineering. For more information, please visit www.rnldesign.com.
