

RNL Design (www.rnldesign.com) is a global, full-service design firm specializing in sustainable, integrated design. Founded in 1956, RNL offers a continuum of design services including architecture, interior design, landscape architecture, urban design and planning. In May of 2011, RNL was ranked #20 on *Architect* magazine's The Architect 50, an annual ranking of American architecture firms.

RNL is seeking a **Senior Project Architect** in its Washington, D.C. office. The candidate must have strong design-oriented technical skills. **Project experience in commercial, mixed-use and transportation/ transit facility projects is desirable.** Primary responsibilities include leading projects from programming thru construction administration phases. Demonstrated abilities to work with clients, coordinate with consultants and lead a team are essential.

Responsibilities:

- Lead project teams from the development of the facility program thru design, construction documentation, bidding and construction administration.
- Be actively involved in the production of the design and construction documents on a day-to-day basis, including drawings, specifications and other design documentation.
- Resolve complex design and technical issues with the team to produce innovative and constructible solutions.
- Communicate and coordinate the design with the internal architectural team and with engineering and specialized consultants.
- Manage client relationships and team communications in conjunction with the project manager.
- Interface with building and permitting officials during the design, permitting and construction phases.

Requirements:

- Bachelor's or Master's degree in architecture.
- Minimum of 10 years' of architectural experience with a range of project types to include project leadership experience or equivalent combination of education, skills and experience.
- Registered architect (preferably Virginia and/or Maryland);
- LEED Accreditation and good knowledge of sustainable design practices.
- Proficient in Revit and AutoCad (SketchUp a plus).
- Excellent communication skills and strong client relationship skills.
- Knowledge of architectural principles, practices as well as standard operations, building codes, policies and procedures within the A/E industry.
- Demonstrated use of advanced professional techniques, concepts, procedures and judgment on project assignments.

RNL is proud to provide a competitive salary and benefits package, as well as a professional and collegial culture. We have employees who are passionate about what they do and that translates to a culture of high performance and superior client service. To apply, submit a resume and portfolio to: human.resources@rnldesign.com or mail to: RNL Design 1050 17th Street, Ste. A200, Denver, CO 80265. EEO/AA Employer.
