Barb.Adams@RNLDesign.com****RNL Phoenix Office Moves to Greener Digs**

Phoenix, AZ, April 11, 2008 – RNL’s Phoenix office will be relocating from their current location on N. 12th St., to a new, “greener” location at 100 West Camelback Road according to Larry Allen, managing principal, RNL Phoenix. The new office space is pursuing LEED certification from the U.S. Green Building Council.

The 7,600 square foot building is not new construction but the interiors have been completely remodeled using the latest in sustainable design including low VOC paints, daylight sensors, recycled content carpet, recycled blue jean insulation and green housekeeping products. The building is located across the street from the currently under construction Valley Metro Light Rail and offers preferred parking for carpooling and bike racks and showers for their employees who bicycle to work.

“We are very excited about our move,” says Allen. “Our new office will be more efficient for our employees and makes a statement that RNL is serious about standing behind our commitment to using sustainable design in everyday life.”

Effective April 14, 2008, the firm's new address will be 100 W. Camelback Rd., Phoenix, AZ, 85013. The phone number will remain the same (602) 212-1044.

RNL is an integrated full service design firm with offices in Phoenix, Denver, and Los Angeles. RNL specializes in providing sustainable and energy-efficient design and offers clients a continuum of design services including architecture, interior design, landscape architecture, urban design and planning, and engineering.
